January 31, 2023

Dear Clients, Friends and Trusted Advisors:

Exciting News!

For several years I have been searching for ways to enhance our service to you without interfering with my succession plans. It is obvious that if we are to continue to supply our clients with high quality services, our human and technological resources must expand. With this in mind, I set out to find an organization with the same dedication to providing clients with high value tax, accounting and consulting services. After an exhaustive search, I not only found an organization that subscribes to our standard of service, but with the ability to enhance our service well beyond my expectations. That firm is 360 Business Management.

I'm delighted to report that as of January 31, 2023, **360 Business Management, Inc.** has taken over the business of E. Paul Brodsky, CPA, Inc. As part of the 360 Business Management organization you will have the benefit of additional highly qualified professionals, their staff and my amazing long-term staff who are now employees of 360 Business Management. All your current services that you are accustomed to will continue with 360 Business Management, enhanced by the presence of additional qualified people and resources. To be clear, this is only a step towards my retirement. I will not be going away anytime soon. I am staying on to work with 360 Business Management to ensure a smooth transition for our clients. I foresee gradually decreasing my involvement to a part time schedule to ease into retirement, but for now it's business as usual. In that regard you should have already, or you will, receive new engagement letters to sign on with 360 Business Management going forward.

360 Business Management's principals Josh Martin, CPA and Reggie Gooden have over 35 years of experience between them and have achieved an excellent reputation as partners in the tax, business management and accounting community. Their main office is in the Warner Center in Woodland Hills with satellite offices in Calabasas and now, Burbank. 360's partners, Reggie and Josh have invested very heavily in state-of-the-art technology and are prepared to leverage that technological advantage to make processes easier for both our staff and clients. Technology aside, the real strength of any organization is in the expertise of the people. I don't know of any organization that would fit with our clients better than this group of highly trained and experienced professionals and their staff.

We here at EPBCPA are very excited about this news and we can't wait to share it all with you. Please feel free to call, text or email any questions you might have as we continue this journey together.

Most sincerely yours,

Paul, Mary and staff
